

Adaptor Flange

LINE ITEM: 11

This patent pending design incorporates a four piece snap construction to reduce inventory footprint & allow for larger stock.

Safety Barrier

LINE ITEM: 14

The integral safety barrier provides added protection from an incidental security breach of a primary septic riser cover.

Pipe Connector

LINE ITEM: 7

Use to extend existing 24 in. riser. Connects 24 in. inside diameter plastic septic tank riser pipe to existing concrete or plastic.

Aero-Stream components easily adapt to existing concrete & plastic setups.

• Integrated safety barrier

• Butyl sealant for water tight seal
